FIAP BLUE BADGE

Prioteasa Sebastian Ionut
Romania

I believe that I am a work in progress myself! I try to learn everyday, I enjoy life and aim to make "the" difference. Father of three wonderful children, I love photography, sports and nature. I believe in peace, love and taking care of the world we live in.

I started to love photography from cinema and from nature and began to think serious about it in 2015. The moment I was able to really see and to observe people and nature was when I could express myself through photography. Watching a sunrise or a sunset even without a camera by my side is something that I really enjoy. I believe that we have to observe, understand and respect the environment.

I believe in statements, in details. Every photo should take you on a journey. Currently everyone takes photos and publishes them somewhere on the internet The message photography brings is of utmost importance.

The mood and the story are definitely what keeps me going regarding photography, it's very important to have a message. Photography is something personal to me. I try not to just publish any photo, but to carefully choose the ones that matter.
